

# J.N. WHITE DESIGNS

ACCOMPLISHED CUSTOM PRINTERS SINCE 1960

## Function/User Interface

### *Medical Industry*

J.N. White Designs has been a strategic partner of industry leading medical equipment manufacturers for years. Our knowledgeable staff understands the demands put on products in a fast-paced medical environment and has developed many industry appropriate solutions.

J.N. White Designs offers proprietary "Click Touch Technology" in membrane switches, which provides up to 6 million actuations and is perfect for applications where switches are seldom activated by the gentle touch of a finger.

J.N. White Designs' formal relationship with 3M allows us to utilize adhesive technology that will hermetically seal switch assemblies or overlays to customers' sub-panels or housings. Last but not least, J.N. White Designs' ISO 9001:2000 certification assures "GMP" (Good Manufacturing Practices), which has become a critical expectation among our manufacturing customers.
